## 54 Million Americans have reduced mobility

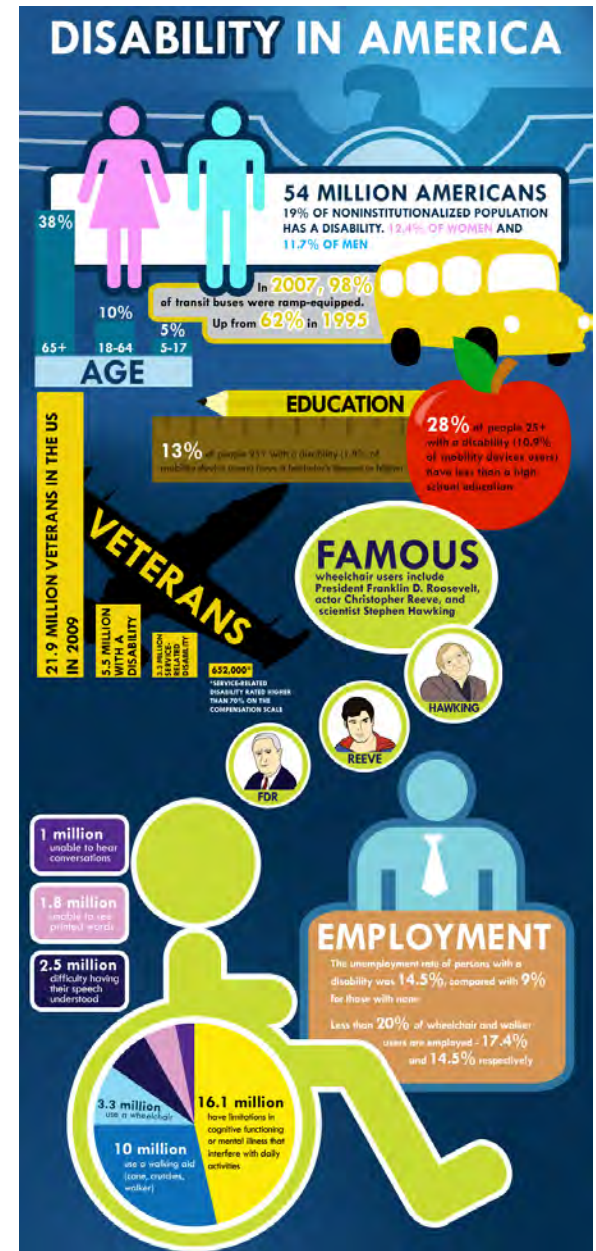

- 20K vehicles are sold annually with Mobility Equipment
- Mobility Equipment Manufacturers are expanding production capacity to meet the increased future need for adaptive equipment
- Assistive technology plays a critical role in their lives and in purchasing decisions
- 62% of buyers are likely to do business with companies that have a commitment to diversity/ disabilities

## Elderly Drivers Becoming the Norm

- Nearly half (46%) of all new vehicles in the US are purchased by people over 55 years old
- In the next 10 years, those over 65 will count for more than 20% of all drivers
- Over the next 30 years the number of drivers over 65 is expected to rise by 77%
