Comprehensive Automotive Mobility Solutions (CAMS)

Earn FREE CEUs

.7 AOTA or RESNA CEUs
7 AKTA contact hours
7 CCMC or CRCC CE credits

This **FREE** introductory continuing education course (CAMS) covers key topics pertaining to personal automotive mobility solutions. This course will assist allied health professionals in understanding and advocating for individuals seeking automotive vehicle modification solutions, while also guiding them through the evaluation, selection, and purchase process of appropriate mobility options.

At the conclusion of this activity, participants will be able to:

- Describe the unique process involved in researching and evaluating mobility equipment solutions options that are available for your clients.
- Differentiate between key mobility equipment participants and providers involved in the automotive mobility equipment industry.
- Identify useful mobility equipment resources to assist clients and their caregivers.
- Summarize the risks of poor awareness about safe mobility equipment options.
- Discuss general knowledge about accessible vehicles and adaptive equipment.
